

DND FOR KIDS

Kathryn Hennessee

Concept

The idea of Broadening the horizons of DND (Dungeons and Dragons) and making it for younger kids. By giving them the full experience and making a immersive, fun and digital illustrated campaign. Going through and creating fun Art-work, Maps, Characters to enhance the experience overall!

Why DND for kids?

Dnd also gives kids the opportunity to open up and become more social in a time where its been more difficult to do so because of COVID - 19. The ability to play with other kids in person or online, giving them another outlet of socialization other than home. With this kind of setting for kids, it makes it easier for them to communicate and make friends aside from being in the classroom.
